WHAT IS AïA\WELLNESS?

AïA\Wellness is Palmaïa's Retreat Experience that leads to healthy lifestyle habits and a journey of personal growth. Being at Palmaïa allows you to detoxify your body, purify your mind, and reignite your soul.

AïA\Wellness is rooted in our local traditions and cultures, specifically the ancient teachings of the Mayans. The sacred Mayan texts of the Popol Vuh refers to brothers traveling through different houses that guided their spiritual growth. There are four 'houses' that complete the AïA\Wellness retreat experience:

THE HOUSE OF THE NOURISHING BIOME

The Nourishing Biome is a unique food program available only at Palmaia, where every meal is designed for optimal health. We simply remove the most toxic ingredients from the modern food system.

Our menus consist of a healthy integrative food offering that promote various health benefits, including weight loss, reduced inflammation, stress relief and longevity. Each dish is always tasty, creative, and freshly prepared.

Our promises

1. To use minimal amounts of processed or packaged foods.
2. No refined sugars.
3. No refined seed oils.
4. Include homemade fermented food options in all menus.
5. Most vegetables sourced from organic farms.
6. Prioritize use of seasonal fruit
7. All breads crafted with fermented sourdough starters and natural unbleached flours.

Restaurants

LEK – A sophisticated twist on traditional Mexican Cuisine. Here you will discover the hidden gems of Mexican culinary culture that are not yet exported around the world. This cuisine goes beyond Tacos and Burritos.

UME – Set among a sophisticated jungle influenced interior, serving Oriental Cuisine with a strong connection to Japan. Premium Sake Menu Available.

Mar de Olivo - Mediterranean-inspired fresh healthy cuisine complemented by homemade pastas to indulge.

Su Casa – A Fresh blend of modern healthy cuisine combined with wood-fired cooking, amplifying the textures and flavors of the dishes.

Plantissa – Healthy'er Café featuring plant-based offerings such as smoothies, bowls, bakery items, sandwiches, house favorites, local soups, fresh juices, and the best coffee on the resort.

Charly's Vegan Tacos Food Truck – Once a star of the Tulum food scene, this eatery specializes in street tacos replicating the textures and flavors of meat, all made in-house.

THE HOUSE OF THE ARCHITECTS OF LIFE

The Architects of Life programming includes more than 30 holistic and health activities carried out every week by our in-house and visiting guides. Activities take place in different locations, most among nature, throughout the resort.

Private Sessions

In order to facilitate integration and delve deeper into an experience, guests can book 1:1 sessions with our guides, which are available at an additional cost. As part of our principles, Palmaia is aware of how important it is to make a productive contribution to the ecosystem of which it is a part.*

Visiting Guides

Guides that join while passing by to impart new experiences and share their healing wisdom.

* All profits from 1:1 sessions go to our community support program called DEPTH.

THE HOUSE OF THE RITUALS OF SOUND

No Wellness concept would be complete without an element that included sound, frequency, and vibration. There's nothing quite like the sensation of being barefoot on the beach, at sunset or at night, while gathering among the tribe and listening to deep beats.

Rituals of Sound are curated music events held at beautiful locations that lead to integration, gathering and connection.

THE HOUSE OF AïA

AïA brings awareness to what is hidden from us. She unifies the divide between what we perceive as reality and what we sense as an invisible guiding force. In other words, we connect to AïA when we become aware. AïA is your true home, your house, the place where you feel comfortable, gravitating toward her during every step of your journey.

The fourth house requires patience and work for many. Some are already connected to AïA, some will require time to connect. Regardless of your journey through the houses, the path you're on is precisely where you need to be at this very moment. Only you will know when you have entered the fourth house - The House of AïA - because nothing will ever be the same again.

ATLANTIS SPA

Perfectly integrated into a unique jungle and cenote ecosystem, Atlantis is more than a Spa, it is a place to discover and feel the power of healing energy. Centered around ancestral traditions and natural healing methods, our team of medicine men & women impart their knowledge and skills in a unique natural environment that fosters connection to nature and ultimately, relaxation.

AWEN

At Awen, the 'kids club', we believe that children's interaction with the world should accompany their natural growth cycles. From a young age, children need the freedom to express themselves naturally and to express their creativity without boundaries or limitations.

Our program is designed to provide a fun and interactive experience for children while teaching them about the core principles we are guided by at Palmaia, primarily emphasizing connection to nature and respect for others.

We take pride in being a digital-device-free environment, ensuring that children will never interact with a digital screen during their time with us.

DEPTH

Depth is our community program that supports Mayan villages by funding entrepreneurial endeavors. Local people propose projects, and we fund the creation of businesses that enrich the communities. There are no debt obligations whatsoever, ensuring that all wealth created from the businesses remains within the communities.

When guests do 1:1 session at Palmaia, 100% of the profit goes to the DEPTH program. Therefore, guests indirectly contribute to the betterment of local communities as they invest in their own personal growth at Palmaia.

RETREATS & FESTIVALS

Palmaia was created with the vision of becoming a gathering place for communities seeking personal growth and healing. While it operates as a resort, its concept and design have always been aimed at evolving into a year-round retreat and festival experience.

We already host world-renowned festivals, events and retreats, and with our “all-inclusive” model, we develop customized proposals to allow retreats & group leaders to focus on connecting and guiding their attendees. By attending or organizing one of these events, you can experience the best of what Palmaia has to offer.
