

HACIENDA
UAYAMON

IHG[®] HOTELS &
RESORTS

Strategically located 20 kilometers from the magnificent Mayan ruins of Edzna, Hacienda Uayamon encapsulates the grandeur of a glorious past, offering our guests a unique and unforgettable experience. Its walls, steeped in centuries of history, constitute a cultural treasure that provides refuge for both history enthusiasts and those who appreciate the rich biodiversity of the area.

A notable setting is the old machinery room, which now stands as the emblematic outdoor pool, built among carefully preserved ruins, stone walls, and pillars. Refreshing oneself and swimming in it transports one to another era, with the jungle as a backdrop.

The workers' houses have been converted into rooms. Completing the set is the Charity Hospital, offering a total of 12 rooms, including the master suites. Each room is uniquely decorated, featuring a Mayan hammock.

The central patio of the hacienda, alongside its iconic "Ceiba" tree, over 100 years old, is now the heart of the house, extending a warm welcome to guests. In front of them stands the main house, built in the late 19th century, arranged on different levels, possibly built on a pre-Hispanic mound.

The walls of the chapel, featuring the ancient irrigation system, still prevail.

Rooms

The Indonesian architect, Jaya Ibrahim, designed the guest rooms and public areas, giving our Hacienda a very unique touch. Large, bulbous pegs in the guest room's stone walls hold the woven cotton hammocks for which Yucatan is famous, allowing you to sleep in the Mayan style.

Discover the Beauty of Hacienda Uayamón - A Sanctuary in the Campeche Jungle: - Strategically located in the heart of the jungle, within easy reach of the majestic Mayan ruins of Edzná, Hacienda Uayamón stands as an unparalleled haven of peace. - Its name, translating to "place where sorcerers descend" or "where the spirit descends" in the Mayan language, reflects a profound connection with nature and mystery.

Hacienda Uayamón, with its majestic Ceiba tree of over 100 years, welcomes you at its entrance. This centennial tree, considered sacred in Mayan culture, holds ancestral secrets. Its shadow stretches along the trails, inviting you to explore the riches of the hacienda. In the 19th century, Hacienda Uayamón emerged as a prominent henequen production center, playing a crucial role in the prosperity of the Campeche region.
